For #18 – somehow we need to acknowledge that there is a set of PFASs that are already in commerce that is not subject to the review described. We should also indicate that the program has been used for that pre-market testing for many of the compounds. **Deliberative Process / Ex. 5**

Attached please find OPPT's comments on the Senate QFRs. These are the set where we said we would get back to OW Thursday morning since they gave us an extension. So if possible please review in the morning.

Hi Mary,

In re-reading these emails I'm not certain what the due date was for OPPT, either noon today or yesterday. In either case, we have missed the deadline, apologies. The program and Tala's comments are attached, please let me know if any questions.

Thanks,
Hans

Hi, attached are the final set of Senate PFAS QFRs for review. Please send any comments to me by NLT Noon, Wednesday, Nov 27th. Noon is a hard deadline since I was able to secure a 24-hour extension with the promise that we will send comments to OW on Thursday morning. Thank you for your cooperation.

M

Hi team, now that the HEC PFAS QFRs are off to OMB for interagency review, I wanted to send for final internal review the Senate QFRs. I compared these to what we sent for the House QFRs but there were no conforming edits to make.

I know this week is tough with a lot of folks being out for Thanksgiving, but I'm hoping you can reply with any comments/edits by noon next Wednesday, 11/28. This corresponds to the deadline for interagency review of the House set, so my goal is to align and incorporate any feedback we get on those with any input you have on these before we send these to OMB. Hopefully my logic is not terribly confusing here! If the above deadline will be problematic for you, please let me know how much additional time you think you might need.

Thank you so much and please let me know if you have any questions or concerns. (And of course, Happy Thanksgiving to all!)

Best,
Elizabeth
